

# Pré-écriture : PRECISION et RYTHMES

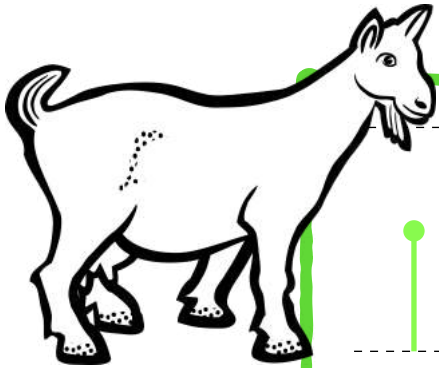

Idée et réalisation Sylviane Beutler

## A LA FERME !

Graphisme et pré-écriture pour s'amuser et entrainer la précision, les rythmes et les algorithmes.  
Des fiches pour observer, dessiner et colorier sans dépasser !

**Pré-écriture** : A la ferme. **Le pré.** Termine le pré pour que la chèvre puisse brouter. Continue les traits selon les algorithmes, de haut en bas, en évitant les poules. Images Pixabay

Tracing practice row 1: A set of three horizontal dashed lines. On the left, a green dot is on the top line. From this dot, a solid green vertical line goes down to the middle dashed line, and a dashed green vertical line goes down to the bottom dashed line. This pattern repeats with a solid line to the middle and a dashed line to the bottom. A red hen is on the right side of the row.

Tracing practice row 2: A set of three horizontal dashed lines. On the left, a green dot is on the top line. From this dot, a solid green vertical line goes down to the middle dashed line, and a dashed green vertical line goes down to the bottom dashed line. This pattern repeats with a solid line to the middle and a dashed line to the bottom.

Tracing practice row 3: A set of three horizontal dashed lines. On the left, a green dot is on the top line. From this dot, a solid green vertical line goes down to the middle dashed line, and a dashed green vertical line goes down to the bottom dashed line. This pattern repeats with a solid line to the middle and a dashed line to the bottom. A red hen is on the right side of the row.

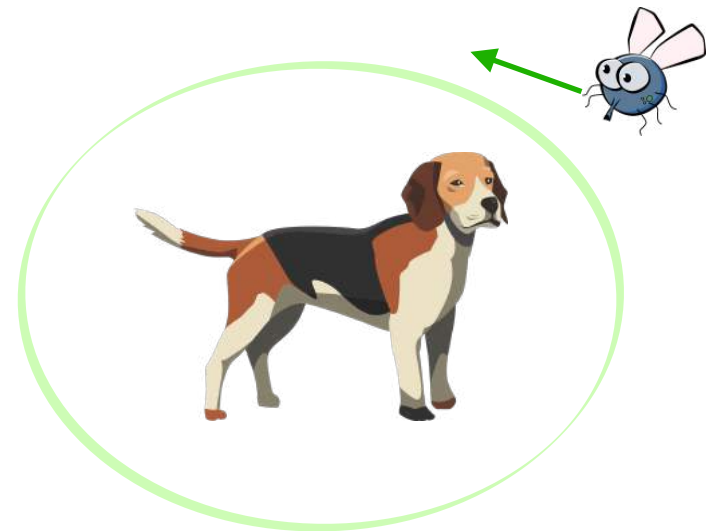

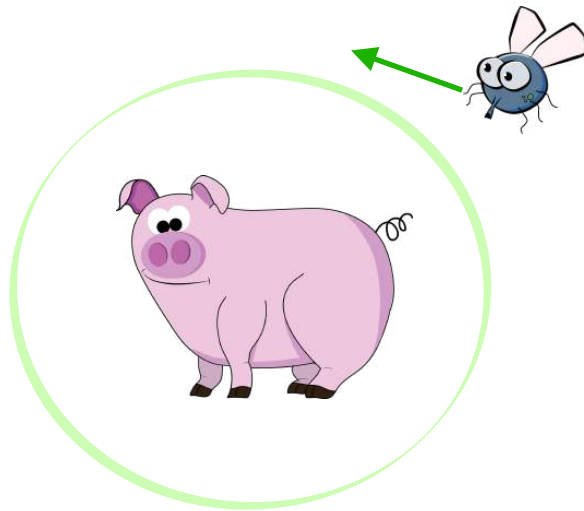

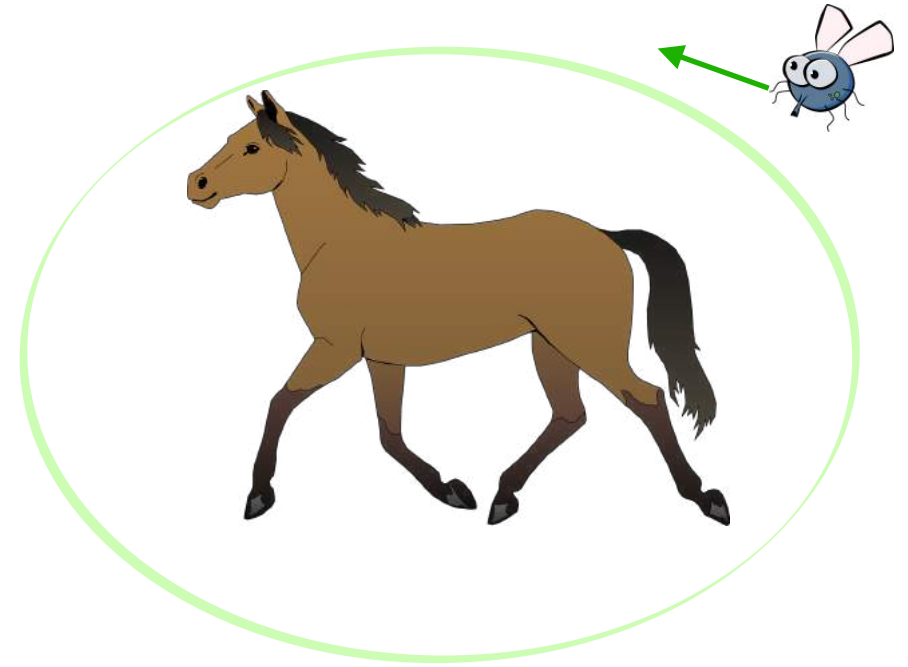

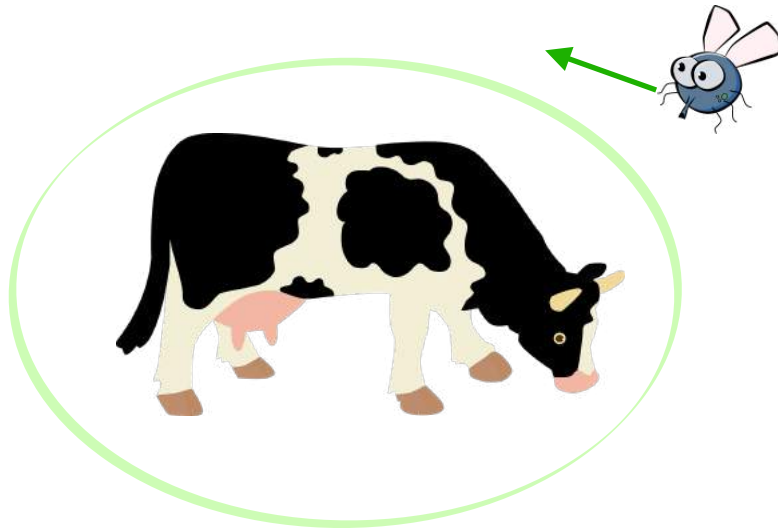

**Pré-écriture** : A la ferme. **Les graines.** Colorie les petites graines que la poule mange sans dépasser et en observant le début de son parcours ( algorithmes ). Images Pixabay

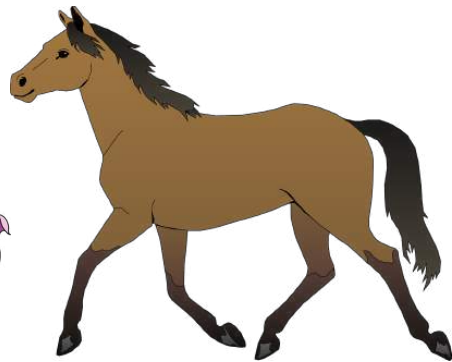

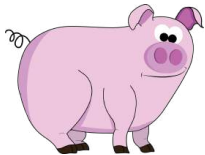

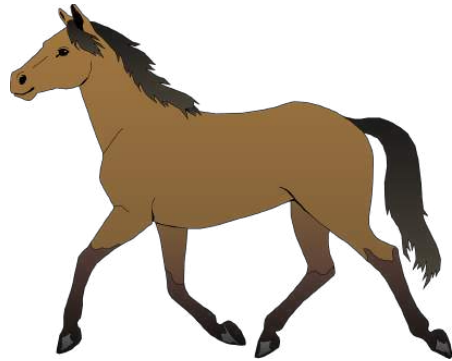

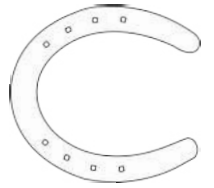

**Pré-écriture** : A la ferme. **Les mouches** agacent les animaux. Fais la mouche et tourne 10 fois autour de chacun d'eux...
